Plugable USB-C Triple Display 4K HDMI and DisplayPort Docking Station

UD-6950PDZ

HDMI, DisplayPort, or Both

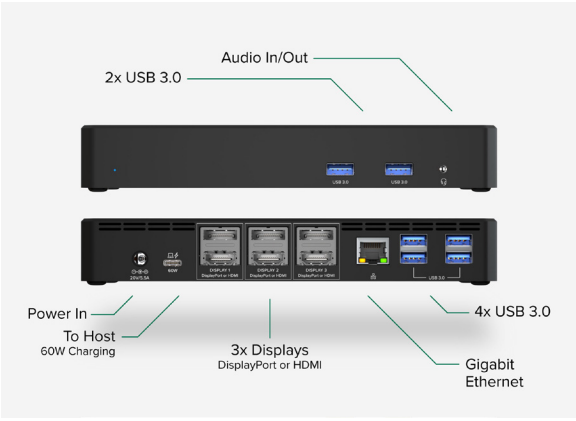

The Plugable USB-C Triple 4K HDMI and DisplayPort Docking Station (UD-6950PDZ) offers three 4K HDMI Ports, and three 4K DisplayPort ports so you can mix and match up to three monitors—no adapters necessary. Connect three displays with two screens up to 4K 60Hz, and one screen up to 4K 30Hz.

A Powerful Performer

This 12-port dock also includes an Ethernet port, an audio jack, and 6x USB-A ports to pair all of your peripherals. Additionally, the UD-6950PDZ provides 60W charging. If your laptop supports USB-C Power Delivery, 60W charging will supply the power your laptop needs to keep you working for the whole day. 96W laptops may need additional power.

Compatibility

Connected to a Thunderbolt 3 / 4, USB4, or full-featured USB-C port and Windows 10, Windows 11, or macOS 11+, this triple display docking station lets you connect up to 3 monitors, even if your laptop only supports 1.
